

## Appendix F Version 0.3.0 Feedback and Discussion via Email

**From:** Developer

**To:** Ozgul Kazanci [YCISQD Staff]

**Subject:** StuCo Management v0.3.0

---

Dear Mr Oz,

I have just finished developing the v0.3.0 of StuCo Management with functionality for the checkout system in conjunction with the product list. I have made the changes you requested in your previous email, together with the additional functionality planned.

I have attached a screen recording of v0.3.0 for your reference together with the installable file. (I do not recommend that you install the app on your personal device as it is not ready for use currently.)

Thanks,

Developer

---

Dear Developer,

The checkout system looks perfect! I really like the grid style layout for each product, I think this will be greatly beneficial. Can you just add a subtitle on each tile showing the price of the product? I think that would make it even better.

Also, I am sure you are aware of the issue with phones and mobile devices at school, is there any way you can circumvent that and still use this app, I really want to use it!

Best regards,

Ozgul Kazanci
