

Appendix H Version 0.5.0 Feedback and Discussion via Email

From: Developer

To: Ozgul Kazanci [YCISQD Staff]

Subject: StuCo Management v0.5.0

Dear Mr Oz,

I have just finished developing the v0.5.0 of StuCo Management with the data all migrated from device only to onto the database for data to be synced across devices. I have also implemented the system for role-based permissions and the colour scheme that I showed you for the prototype with Marvel. (Almost There!)

I have attached a screen recording of v0.5.0 for your reference together with the installable file. (I do not recommend that you install the app on your personal device as it is not ready for use currently.)

Thanks,

Developer

Subject: Re: StuCo Management v0.5.0

Dear Developer,

Wow! Almost there! I love the looks of this in terms of functionality and availability. But, I would like to change the colours and the theme of the app. Can you make it more minimalistic with a lighter theme and maybe say red or purple as an accent colour? But other than that, it looks amazing and I look forward to the first release version!

Best regards,

Ozgul Kazanci
