Appendix G Version 0.4.0 Feedback and Discussion via Email

From: Developer

To: Ozgul Kazanci [YCISQD Staff]

Subject: StuCo Management v0.4.0

Dear Mr Oz,

I have just finished developing the v0.4.0 of StuCo Management with the finance management systems including transaction logging and graphing. I have made the changes you requested in your previous email, together with the additional functionality planned.

I would suggest a use of iPads to run the app, I can optimise the app for you to be able to run the app on an iPad and I think that will work as a school iPad could be used. Students could also be use the mobile devices when necessary off-school.

I have attached a screen recording of v0.4.0 for your reference together with the installable file. (I do not recommend that you install the app on your personal device as it is not ready for use currently.)

Thanks,

Developer

Dear Developer,

This looks amazing! The graphs look really good and I like how you have broken down each category into both inflows and outflows, its really nice having all the info available in one screen. I love it! I have no other feedback in terms of changes for this version.

Best regards,

Ozgul Kazanci
