Subject: StuCo Management v0.1.0

Dear Mr Oz,

I am just finished developing the first version of StuCo Management with functionality for logging in and logging out here. Unfortunately, I do not think you will be able to add members from within the app as the platform I am using does not support that feature. However, it can be done by accessing the platform directly using a web interface.

I have attached a screen recording of v0.1.0 for your reference together with the installable file. (I do not recommend that you install the app on your personal device as it is not ready for use currently.)

Thanks,

Developer

Subject: Re: StuCo Management v0.1.0

Dear Developer,

This looks very good. I have a few comments that I would like to make. The login section looks very good, but could you also add a section displaying the error message if present? Also, for the app design, can you reduce the amount of tabs in the bottom navigation bar? I think it will look cleaner if you move the stock list into the checkout section and the transactions list into the finance page.

Good luck!

Best regards,

Ozgul Kazanci
